

SAP Big Band: Technical Rider

Stage Plan

The picture contains one box per part (for example, Trp 1, Trp 2). However, some of the parts may be doubled.

The band needs 15 chairs on stage.

For open air concerts, the stage must be sheltered and protected from spray.

The stage must be illuminated with minimal glare so that the musicians can read easily their sheets.

Microphones

- Sax: 4
- Trb: 3
- Trp: 3
- Drums: 4
 - Overheads: 2

- Snare/Hi-Hat: 1
- Bass Drum: 1
- Solisten: 2
- Bass: directly in DI
- Git Mic/Amp
- Keys directly in stereo DI
- Voc: wireless
- Announcer/band leader: wireless or wired

Additional Requirements

The band needs 30 minutes to set up their stands and instruments, and another 30 minutes for the sound check.

The band needs a dressing room for 25 persons and enough space to store their instrument cases.

Beverages: The band needs 30 bottles of mineral water on stage.

Additional arrangements for drinks and food are subject to negotiation.

The event organiser will bear all costs related to GEMA or other performance rights organisations.
